

Erin House Captain Manifesto

After 6 whole years of being here at St Joseph's I know what most people want in a house captain. They want somebody who can organise turning our playground into a swimming pool or make school end at 2 p.m. or "no school" Fridays or children who are teachers to make school seem more fun. But Mrs Grange won't allow any of these to be made into reality.

Even though I agree that all those ideas would create a lot of excitement I think that if you are kind to everyone and work as a team (by not bossing others around) it is the equivalent to all those suggestions. As long as you have good friends and positive behaviour you will have lots of great times and earn many house points.

As a house, I believe with me leading you by being a role model, we can achieve the most house points this year out of all 4 houses. I would like (and I'm sure most of you would) to most weeks see our Saint Edmund Campion plaque standing proudly next to the ambassadors trophy meaning we have achieved the most house points for that week.

As a house captain I would like to organise for us to raise money for CAFOD and You Touch Africa by selling cakes and other sweet treats.

I know that as a house captain I have a lot more responsibilities than just counting house points fairly and correctly. I can and know that I also have to guide you to achieve something new whether it's getting more house points or being a role model to others.

I believe that if we work together as a team we can also do better in sporting events such as the inter house sports competition and sports day. Not that we have done badly before because we try our best.

Please vote for me because I want to make all of these things possible. If I become a house captain I will take on good ideas and try and make them achievable. I want to be a house captain not just so I can be more involved in Saint Edmund Campion but also to make it better than it already is.
